FOREWORD

We are delighted to provide this, the first supplement to Volume 3 of the Saudi Arabian Stud Book Return of Mares. It contains a record of the 2008 foal crop in the Kingdom.

In addition Volume 3 of the Saudi Arabian Stud Book Non-Thoroughbred Register has been produced within this publication. This Volume contains a record of the 2008 Non-Thoroughbred foal crop in the Kingdom.

We trust you will find these records of the ever-expanding Saudi Arabian breeding industry, an interesting and valuable guide to progress in the Kingdom.

Moustapha M. Fostock
Director General
Saudi Arabian Stud Book

LIST OF COUNTRY CODES

Listed below are the internationally agreed abbreviated suffixes that are used to denote the country of foaling when names are registered for horses foaled outside the Kingdom of Saudi Arabia.

ALG	Algeria	LUX	Luxembourg
ARG	Argentina	MAL	Malaysia
AUS	Australia	MAR	Martinique
AUT	Austria	MAU	Mauritius
AZE	Azerbaijan	MDA	Moldova

LIB	Libya	YUG	Yugoslavia
LTU	Lithuania	ZIM	Zimbabwe

INDEX TO MARES

All registered mares, Thoroughbred and Non-Thoroughbred, which have been covered by a registered stallion in either 2007 or 2008 and whose covering has been reported to The Saudi Arabian Stud Book are listed in the index. Non-Thoroughbred mares are indicated with an asterisk after their name.

To the right of the mare's name in the index appears a number or numbers which refers to the stallion under which this year's returns or covering details can be found; each stallion having been allocated a number or numbers if appearing in both 'Broodmares and their produce' sections of this issue. Each stallion involved in a double covering also has a further number. Numbers in italics refer to 2008 coverings.

Mares not appearing in the 'Broodmares and their produce' sections under 2008 Returns but listed in the Index are those which have not been covered and are indicated by X.

For Non-Thoroughbred mares, a previous reference, where relevant, is given indicating the mare's last appearance in the Non-Thoroughbred Register. (Vol., p..) is the style used when the mare has not previously appeared as a broodmare and is, therefore, the mare's foaling reference. See Vol., p.. is the style used for a mare which has appeared previously as a broodmare.

FIRST SUPPLEMENT TO
VOLUME 3 OF
THE SAUDI ARABIAN STUD BOOK

SAUDI ARABIAN STUD BOOK

RULES AND REGULATIONS

1. ELIGIBILITY:

1.1 To be eligible for entry into the Saudi Arabian Stud Book the horse must:

1.1.1 Be the product of a mating between a sire and dam both of which are recorded in a Thoroughbred Stud Book approved by the International Stud Book Committee.

OR

1.1.2 The horse must prove satisfactorily eight recorded crosses consecutively with horses as described in 1.1 including the cross of which it is the progeny, and that its promotion to Thoroughbred status is unanimously approved by the International Stud Book Committee.

1.2 Although, a horse may qualify under 1.1 above, the Saudi Arabian Thoroughbred Stud Book (SASB) has the right to refuse to record a horse in its Stud Book if the horse cannot prove satisfactorily eight recorded crosses consecutively (including the cross of which it is the progeny) with horses described in 1.1.1 and 1.2.1, but such refusal shall not be effective unless it is confirmed by the unanimous decision of the International Stud Book Committee.

2. REGISTRATION FOR BREEDING:

2.1. Before any thoroughbred stallion or mare can be registered in the SASB as breeding stock the animal's identity must be established. This is achieved by:

- a) The completion of a registration form issued by the SASB, recording the animal's registered name, colour, age, pedigree, present owner and previous history so far as known.
- b) The provision of current markings of the animal, taken by a veterinary surgeon.
- c) The establishment of the DNA profile or bloodtype of the animal. In respect of all animals this will require the provision of a current blood sample taken by a veterinary surgeon except for broodmares whose bloodtype has been officially established, unless for reasons of doubt or incompleteness a current blood sample of the mare is considered necessary. It is a condition of import that the horse's DNA profile or bloodtype, as taken at initial registration, is provided by that horse's country of origin and sent directly to the SASB on request.

2.2 In the case of all animals which have been imported, an Export Certificate identifying the animal, and issued by the Stud Book Authority of the animal's country of birth, must be received from the country of export. For imported animals visiting Saudi Arabia for less than nine months the requirement of the provision of an Export Certificate may be replaced by the lodgement of the animal's identity document issued by the Stud Book Authority (SBA) with which it was registered and currently endorsed by the relevant authority of the country from which it has travelled.

2.3 No animal may be registered as breeding stock retrospectively, after it has died, except at the discretion of the SASB and only if the animal's DNA or blood type has been officially established prior to the animal's death.

3. OWNERSHIP

3.1 For every stallion or mare registered as breeding stock the name and address of the animal's owner must be lodged with the SASB.

3.1.1 This requirement is necessary for the purpose of administration and in the case of a Broodmare for the recording of the breeder of the foal. It should not be construed that the records maintained by the Saudi Arabian Stud Book give the applicant legal title over the horse.

3.1.2 For the purpose of these Conditions of Entry the breeder is the person or entity who has been recorded as above as being the owner of the mare at the time that her foal was dropped.

3.1.3 Owners of breeding stock are obliged to contact the SASB to prove details of any changes of ownership.

4. FOAL REGISTRATION

4.1. Breeding Returns

4.1.1 For the produce of a mare to be registered in the SASB the following requirements must be met:

- 4.1.1.1 A microchip approved by the Saudi Arabian Stud Book must be inserted subcutaneously in the neuchal ligament in the left or near side of the foal, approximately 2 inches below the mane, by a veterinarian authorised by the SASB or the Equestrian Club of Riyadh.
- 4.1.1.2 An official Certificate of Covering must be received by the SASB, completed and signed by the stallion owner confirming all dates of covering in the previous breeding season, and confirming the stallion owner's satisfaction as to the correct identity of the mare and declaring that the mare was served naturally and that artificial insemination, embryo transfer, cloning or any other method of genetic manipulation was not used. If the broodmare was covered by two or more stallions a separate certificate for each stallion is required.
- 4.1.1.3 An official Foal Registration form completed and signed by the Breeder giving the required details of the produce, namely the colour, sex, date of birth and country of foaling must be lodged. The birth of twins must be indicated.
- 4.1.1.4 A Foal Identification Certificate stating the parentage, colour, sex, date of birth of the produce completed by the Breeder, and showing a written and graphic description of the markings of the produce, prepared signed and dated by a veterinary surgeon.
 - 4.1.1.4.1 Markings should be taken **before the foal is four months old** and as near as to this deadline as possible.
 - 4.1.1.4.2 A minimum number of identifying features is required. Identity certificates should incorporate both a narrative, typed or completed in block capitals, and a graphic description.
 - 4.1.1.4.3 DNA and blood samples from the Foal, and where necessary, the broodmare and stallion, each taken by a certified veterinarian, to confirm that the mare and stallion qualify as the parents of the foal by DNA or blood typing. DNA and bloodtype information is not made public but is supplied on demand when a horse is exported to the Stud Book Authority (SBA) of the importing country.
 - 4.1.1.5 Payment of the relevant foal registration fee.
- 4.1.2 In the event of no live produce the official Foaling Report must still be completed indicating whether the broodmare was barren, aborted early or slipped, or that the produce was born dead or has died. A return should also be lodged if the mare was not covered in the previous season. Failure to report this information will result in the term "No Return" appearing on the broodmare's produce line for that year in the SASB. The owner should also notify the SASB if the broodmare has died.

4.2 Incomplete Returns

- 4.2.1 Returns which are incorrect or incomplete, or which lack any of the required supporting documentation, cannot be accepted and will be returned to the Breeder for completion.
- 4.2.2 The rate of fee payable for registration of produce will be the rate in force on the date when the completed return is received.
- 4.2.3 Produce for which a completed return has been made in all respects except the provision of required DNA or blood samples will be accepted at the fee applicable on the date the return is received, provided that the necessary DNA or blood samples are received within two months from that date. If the required DNA or blood samples are not provided within two months, the return will not be accepted and will be returned to the breeder for completion, and will only be accepted under the provisions of the first two paragraphs of these conditions.

4.3 Service to produce an eligible foal

- 4.3.1 A foal is not eligible to be recorded in the SASB unless:
 - (a) It is the product of a natural service or covering which is the physical mounting of a thoroughbred mare by a thoroughbred stallion. Any horse that has been the product of artificial insemination, embryo transfer, cloning or any other form of genetic manipulation is not eligible for registration.
 - (b) A natural gestation took place in and delivery was from the body of the mare in which the foal was conceived.

4.4 Recording of coverings

- 4.4.1 The SASB issues Covering Certificates to every Stallion owner.
 - 4.4.1.1 Stallion owners are required to:
 - 4.4.1.1.1 Enter on the Certificate details of the covered broodmares with all required information and declarations. In particular, if a broodmare is covered by more than one stallion, a separate certificate must be completed for each stallion.
 - 4.4.1.1.2 Issue a Covering Certificate to the Owner of each mare covered by their stallion.
 - 4.4.1.1.3 Return to the SASB the completed counterfoils and remaining Covering Certificates by the 30th September in the year of covering.
 - 4.4.1.1.4 Certify that the mating was a natural covering and did not involve the process of artificial insemination, embryo transfer or transplant, cloning or any other form of genetic manipulation.
 - 4.4.2 If a Stallion Owner does not follow these instructions, and in particular if they do not return completed counterfoils to the SASB, the stallion cannot be registered for following seasons

4.5 **Life number**

4.5.1 All registered foals are issued with a unique international identification number (LIFE NUMBER) at the time of registration. This number is comprised of a three character prefix to identify the country of birth (KSA), followed by eight numeric digits.

5. **IDENTIFICATION DOCUMENT - PASSPORT**

5.1 A Passport is issued in respect of each horse registered in the SASB. The passport is the basic identifying document of the animal for which it is issued. This document shows descriptive particulars registered in respect of the animal including details of the breeder, the owner, the microchip number as an aid to identification, a vaccination record and details of all export/import movements.

5.1.1 The passport is not a certificate of ownership and does not convey legal title of the horse to the holder.

5.1.2 The passport remains the property of the SASB and must be returned to the SASB on demand.

5.1.3 The SASB officially endorses the appropriate section of a stallion or broodmares passport to confirm that they are registered as breeding stock.

5.1.4 All entries and changes to a passport can be only made by a person so authorised by the SASB or the Equestrian Club of Riyadh, who confirms the amendment with a signature and rubber stamp.

5.1.5 Registered broodmares can only be covered after the broodmare's owner shows the broodmare's passport to the stallion's owner. The stallion owner must check the broodmares identity which he confirms with his signature on the Certificate of Covering.

5.1.6 Whenever a broodmare or stallion changes hands the passport must be returned to the SASB for endorsement with the details of new owner.

5.1.7 The SASB should be advised if a horse has acquired markings.

5.1.8 In the case of a passport being lost or mislaid the owner of the horse must submit a letter confirming the facts. The SASB will issue the owner with a duplicate.

6. **NAMING:**

6.1 All Thoroughbred horses that have been foaled in Saudi Arabia must have their name registered with The Equestrian Club and recorded with the SASB. The suffix (KSA) is part of the name of any registered thoroughbred horse foaled in Saudi Arabia. Applications for the naming of any foreign bred horse must be submitted to SASB who will apply to the Racing Authority of the horse's country of birth for the availability of the name.

6.1.1 When naming a horse the following Rules in compliance with the International Agreement on Racing and Breeding will apply: -

- (a) It is not permitted to use the names of stallions, which have been used for covering, until a period of 15 years has elapsed since their death or last recorded covering year or 35 years of age have been attained (whichever is the soonest).
- (b) It is not permitted to use the names of mares, which have been used for covering until a period of 10 years has elapsed since their death or last recorded covering year or 25 years of age has been attained (whichever is the soonest).
- (c) It is not permitted to use the names of non breeding stock until a period of 5 years has elapsed since their death or 20 years of age has been attained (whichever is the soonest).
- (d) Names cannot be used that are on the International List of Protected Names; this includes the names of famous stallions and mares and of the best racehorses of the countries participating in the agreement.
- (e) Names cannot be more than 18 characters (including signs and spaces).
- (f) It is not permitted to use the name of a public person, unless permission is given by them or their family.
- (g) It is not permitted to use a name whose spelling and pronunciation is close to a name already registered.
- (h) It is not permitted to use names followed by numbers.
- (i) It is not permitted to use names made up of initials, figures, hyphens, full stops, commas, signs, exclamation marks, inverted commas, forward or back slash, colon and semi-colon.
- (j) It is not permitted to use names whose meaning, pronunciation or spelling may be insulting or obscene.
- (k) It is not permitted to use a name which starts with any sign other than a letter.

7. **IMPORTS/EXPORTS**

7.1 Imported horses

7.1.1 It is the responsibility of each owner/breeder or their representative to notify SASB every time a horse arrives at their stable/farm and to state from where the horse arrived.

7.2 Exported horses.

7.2.1 It is the responsibility of each owner/breeder or their representative to notify SASB every time a horse departs from their stable/farm and to inform SASB as to the destination, preferably before departure.

7.2.2 The SASB requires the receipt of a horse's passport prior to export for endorsement. Also, if the horse is to be exported for a period of greater than nine months then an application for the issue of an Export Certificate along with a current identity certificate of the horse is also required.

7.2.3 The passport should accompany the horse when it travels, after it has been endorsed by SASB. If the horse does not travel after the passport has been endorsed, then it must be returned to the SASB for cancellation of endorsement.

8. DNA & BLOODTYPING

8.1 The SASB requires that:

(a) DNA and bloodtyping is only carried out by the laboratory appointed by the SASB for the purpose of verifying and identifying a horse.

(b) All DNA and bloodtype details of all horses are kept confidential by Saudi Arabian Thoroughbred Stud Book and not divulged except to other Stud Book Authorities

(c) Routine DNA or blood typing for parentage verification can only be used for the registration of horses in the Saudi Arabian Stud Book, and not used for retrospective parentage testing.

8.2 A DNA or blood type established by an overseas laboratory will be accepted only in the following cases:

8.2.1 Only if the animal concerned has died before a valid blood sample could reasonably have been taken from it, to establish the blood type of an imported broodmare or stallion.

8.2.2 In the case of stallions only, for the purpose of parentage testing a foal conceived abroad and imported in-utero provided that the DNA or blood type so established is considered sufficiently comprehensive for the purpose.

9. PUBLICATIONS

9.1 The Saudi Arabian Stud Book is published in full every four years with the Return of Mares supplements published annually.

BROODMARES AND THEIR PRODUCE

RETURNS

The format for 2008 Returns is the same as that used in previous Return of Mares.

COVERINGS

All reported coverings of registered mares are listed with the currently recorded owner of the mare.

ANALYSIS OF MARE RETURNS

All Statistics shown are based entirely on the information contained in the 1st supplement to Volume 3 of the Saudi Arabian Stud Book.

2007 COVERINGS OF REGISTERED MARES:

Shows the number of Thoroughbred Mares registered as breeding stock covered by the stallion during 2006 excluding those mares covered by more than one stallion. Many stallions will, in addition, have covered mares which were not registered as breeding stock at the time of publication.

2008 COVERINGS OF REGISTERED MARES

Shows the number* of registered Thoroughbred mares covered by the stallion during 2008

2008 COVERINGS OF REGISTERED AND UNREGISTERED NAMED MARES

Shows the total number* of mares, registered and unregistered but named, covered by the stallion during 2008

* includes mares which have been double covered.

A stallion which is not registered for the 2008 Season is indicated in these columns by '____'

A stallion which is registered for the 2008 Season for which no coverings have been reported is indicated in these columns by '0'.

SUMMARY OF MARE RETURNS

Thoroughbred Live Produce

ANALYSIS OF MARE RETURNS

All Statistics shown are based entirely on the information contained in the 1st supplement to Volume 3 of the Saudi Arabian Stud Book.

2007 COVERINGS OF REGISTERED MARES:

Shows the number of Non-Thoroughbred Mares registered as breeding stock covered by the stallion (if Thoroughbred) and Thoroughbred and Non-Thoroughbred mares registered as breeding stock covered by the stallion (if Non-Thoroughbred) during 2007 excluding those mares covered by more than one stallion. Many stallions will, in addition, have covered mares which were not registered as breeding stock at the time of publication.

2008 COVERINGS OF REGISTERED MARES

Shows the number* of registered Non-Thoroughbred mares covered by the stallion (if Thoroughbred) and registered Thoroughbred and Non-Thoroughbred mares covered by the stallion (if Non-Thoroughbred) during 2008.

2008 COVERINGS OF REGISTERED AND UNREGISTERED NAMED MARES

Shows the total number* of mares, registered and unregistered but named, covered by the stallion during 2008

* includes mares which have been double covered.

A stallion which is not registered for the 2008 Season is indicated in these columns by '____'

A stallion which is registered for the 2008 Season for which no coverings have been reported is indicated in these columns by '0'.

SUMMARY OF MARE RETURNS

Non-Thoroughbred Live produce

Year	Colts	Fillies	Total
2005	53	42	93
2006	51	41	92
2007	32	45	77
2008	41	46	87
